I have been involved with individuals who have brain injuries for the last 15 years, the last 6 as a support worker.

I have supported people with challenging behaviours.

I have a positive approach which in turn can have a positive impact on the individual being supported.

I have experience in setting goals specific to the individual and helping them achieve positive outcomes.

I have built up an understanding of care packages and how to implement them specific to the individual.

I have experience in supporting clients with visits to health care professionals.

I can work alone or as a team member and am comfortable with both.

Summary of Continued Professional Development

I am committed to expanding my knowledge and skills as a case manager and occupational therapist. I maintain regular clinical supervision. Please see below a selection of some of the training events attended to date.
