### Introduction

Prior to becoming a qualified social worker, I have extensive experience of working with individuals living with Acquired Brain Injury and Spinal injury, supporting them to actively achieve their outcomes of being independent and have a better quality of life. I am also able to use strength bases intervention to problem solve and to support positive risk taking.

I have experience of working with people in the community, supporting them with their activities of daily living, identifying future goals and advocating on their behalf when required.

I have developed many transferable skills which I now apply to case management when assisting individuals with there recovery from serious injury.

### Employment History

Current: **Ability Case Management, Case Manager**

Current: **Leicester City Council Adult Social Care, Adult Mental Health Team**

- Completing robust needs assessments under the Care Act ( 2014).
- Completing reviews of social care needs.
